

EDUCATION

Course Overview

There will come a time in every forward-thinking repair facility whereby business changes or repair process efficiencies will need to be implemented. This one-day interactive course is specifically designed to hone-in on the skill set needed to **successfully** implement these changes in your bodyshop.

During this course, a heavy emphasis is placed on:

- (1) Understanding the need to change.
- (2) How change impacts your employees.
- (3) The critical role you play in the change process.
- (4) Importance of processes to make change easier and more sustainable.

Key areas discussed in this training include:

- Understanding the different types of change that occur in business.
- Appreciate the need to change
- Understand the Science of Change
- Understand why change fails
- Manage the 8 step change strategy
- Identify the change cycle and resistance to change
- Sustain the momentum of change.

Benefits of attending Change Management training:

- Reduces frustration when trying to implement new processes.
- Avoid starting a new process, only to have the team slip back to old ways.
- Improve ability to identify barriers and overcome resistance.

EDUCATION

Who Should Attend?

Bodyshop Owner or Manager, production manager.

How does this course differ from similar courses in the repair industry?

- Taught using a highly interactive guided learning model to keep attendees engaged in the learning process.
- Numerous hands-on exercises related to the collision industry, which emphasise the principles taught. You can also use the exercises in your bodyshop during your own implementation.
- I-CAR certified and eligible for credit points.
