

PRODUCTION MANAGEMENT

Course Overview:

This interactive one-day *Production Management* course is designed to set you on a path to improving productivity and flow of work through your facility.

A heavy emphasis is placed on:

- Better understanding the pre-repair or pre-production activities. necessary to ensure the vehicle repair meets customer, insurer, fleet and dealer standards and can flow smoothly through the production process.
- Understanding and improving the production activities that affect your product, your processes and your people.
- Defining the role the Production Manager plays in producing a quality product.
- Helping to improve your understanding on production flow through your facility.
- Introducing you to the Axalta and Bodyshop tools available to help you implement the practices introduced in this course.
- Reviewing the key leadership strategies needed to implement the changes suggested and refine your managerial skills.

Benefits:

- Reduced repair cycle times and fewer supplements.
- Improved ability to use identify barrier to production and the actions necessary to reduce them.
- Designed to improve repair quality by reviewing the items necessary to reduce them.
- Improve touch-time, eliminate bottlenecks and maximise throughput.

PRODUCTION MANAGEMENT

Who Should Attend?

Bodyshop Owner or Manager, General Manager, Production Manager, Repair Planner, Workshop Controller, Operations Manager.

How does this course differ from similar courses in the repair industry?

- Taught using a highly interactive guided learning model to keep attendees engaged in the learning process.
- Numerous hands-on exercises related to the collision industry, which emphasise the principles taught. You can also use the exercises in your bodyshop during your own implementation.
- I-CAR certified and eligible for credit points.
