

AUDURRA

Refinishing Essentials

Audurra's user friendly products are tailored to optimise performance and meet productivity, safety and efficiency goals of the automotive, commercial, industrial and joinery sectors.

Dry Sanding Paper

Highly durable film backed sanding paper that delivers an extended life compared to conventional sandpapers.

- 15 hole, 6" (150mm) diameter
- Available in P80, P120, P180, P240, P320, P400, P500, P600, P800 and P1500
- Can be used on 6/9 hole and multi backing pads
- 100 discs per box

Polishing System

Audurra "All In One" A8 Polishing Compound

- Quick cutting, one-step polishing compound
- Contains no silicone or wax
- Quick and efficient removal of swirl marks
- Manufactured in Europe

Audurra A9 Polish Fine Glaze

- High gloss finish, excellent for use with dark colours
- Contains no silicone
- Quick and efficient removal of swirl marks
- Manufactured in Europe

Foam Pads

Durable range of foam pads for use with Audurra polishing products:

Flat Yellow Pad

- Suitable for use with A8 Polish, 30 mm width
- 2 sizes: 150mm, 200mm

Black Waffle Pad

- Suitable for use with A9 Glaze, 30 mm width
- 2 sizes: 150mm, 200mm

Masking Tape

Quality general purpose high temperature masking tape for use with all waterborne and solventborne paints.

- Width: 20mm and 45mm

Blue Nitrile Gloves

- Industrial high strength, powder free, super soft nitrile gloves
- Blue in colour for easy recognition
- Highly puncture and chemical resistant, provide excellent durability and barrier protection
- Ambidextrous in design with textured fingertips that provide extra grip for wet or dry situations
- Available in sizes L and XL
- 100 pieces per dispenser box

Disposable Spray Gun Cup System

Specialised reusable plastic mixing cups used with flexible disposable liners and lids. The design of the cup enables a refinisher to mix paint in the cup on the scales then clip it onto the gun with a fitted adaptor.

- Packs of 650ml, 850ml and 400ml cups
- Include 50 disposable lids and flexible liners in each box
- Various adaptors that fit most brands of spray guns, sold separately

Safety Glasses

- Lightweight metal free wrap-around curved lenses
- Flared lateral temples for added comfort
- Clear scratch resistant lenses with an anti-fog coating
- Meet Safety Standard Approval AS/NZS 1337.1:20101

Masking Film

Translucent, high-density polypropylene film designed to protect vehicles from paint bleed-through and overspray during the painting process.

- Standard size of 4.8m x 120m inside an easy to dispense cardboard box
