

EDUCATION

Pre-Lean Course Overview

This is an interactive course aimed at preparing a bodyshop for a Lean transformation. Implementing blueprinting, the optimum parts management and solid production controls all are pre-requisites of a successful Lean transformation.

- A heavy emphasis is placed on implementing blueprinting and other production systems and their impact on “touch time”, Direct Repair Program compliance, throughput, and CSI (Customer Service Index).
- The section on parts management will prepare Parts Coordinators for their critical role.
- The communication programs in the production management area lay a solid foundation for the Axalta Pull Production System.

Key Needs of Successful Course Attendees:

- Willingness to implement new systems or processes.
- Need to improve Technician efficiency.
- Would like to further reduce repair cycle times.
- Need for consistency in the repair process.
- Desire to further improve customer satisfaction through enhancements like on time delivery.
- Wish to improve profitability.

Transforming your company to a Lean thinking culture is a long journey. Axalta Services can support you locally and answer any implementation questions.

EDUCATION

Who Should Attend?

Shop Owners or Managers, Production Managers, Repair Planners, Foreman, Leading Panel Beater, Leading Painter, Key staff members who are progressive thinkers and willing to become "Lean Champions" to aid implementation of the principles.

Benefits:

- Avoid starting a Lean transformation without basic processes in place.
- Transforming your company to a Lean thinking culture is a long journey. Axalta Services can support you locally and answer any implementation questions. We are also fully capable of coming on site and facilitating portions of the Lean transformation with you.

How does this course differ from similar courses in the repair industry?

- Taught using a highly interactive guided learning model to keep attendees engaged in the learning process.
- Numerous hands-on exercises related to the collision industry, which emphasise the principles taught. You can also use the exercises in your bodyshop during your own implementation.
- I-CAR certified and eligible for credit points

Cost:	Axalta Customers:	\$150 for first attendee \$100 for subsequent attendees
	Non-Axalta Customers:	\$200 for first attendee \$100 for subsequent attendees Prices include GST
