Better Performance from Start to Finish

Sontara® offers a broad portfolio of wiping products for cleaning in industrial and automotive environments. Manufactured with unique, proprietary technology, Sontara® wipes deliver super absorbency, excellent strength and durability, softness and extremely low lint.

Sontara® Advantages:

- Safeguard your products and processes and minimise the potential for product defects and associated revenue losses
- Improve productivity and profitability – get the job done right the first time
- Enhance the quality of your work and proactively protect your environment from contamination with Sontara® – a wiping solution with no binders or chemical residue

Aerospace Wipes

Sontara® Aerospace Grade Wipes are great for wiping surfaces dry, for cleaning hard-to-reach crevices, and for use on metal parts and corners because they are specially engineered to resist snagging.

Every Sontara® Aerospace Grade Wipe is clean right out of the box – unlike rental towels which can still contain chemical residue, stains and metal shavings, even after laundering.

Benefits

- Exceptionally clean – contains no binders, chemical residue, contaminants or metal shavings that can result in surface damage or rework
- Higher absorbency rate can result in wiping jobs being completed more quickly
- Low-lint performance helps to minimise defects and contamination
- Durable – high strength fiber blend makes Sontara® Aerospace Grade Wipes less likely to snag on metal parts and sharp corners
- Tackles isopropyl alcohol, MEK, MPK, and other aggressive solvents without falling apart
- Very absorbent – fewer wipes needed to complete the task results in fewer wipes to dispose of

Sontara® Aerospace Grade Wipes meet the following requirements

- Aerospace Material Specification AMS 3819B, Class 2, Grade A
- Boeing Material Specification BMS 15-5F, Class A
- Bombardier Aerospace
- Cessna Aircraft Company CSFS039
- Douglas Material Specification DMS 1820E
- Pratt & Whitney GA100-11E
- U.S. Air Force T.O. 1-1-8

Aerospace grade wipes, 30cm x 42cm, 250 wipes per box (Code: AC12165)

Automotive Wipes

The Sontara® Surface Preparation System offers the right wiping product for every stage of the refinish process to achieve the high quality automotive refinish you are looking for. The unique hydroentangling process from Sontara® uses thousands of high-pressure, needle-like jets of water to entangle the fibers into a Sontara® fabric that's strong and low-linting. Reducing sources of lint or loose fibers can minimise the potential for paint defects.

Cleanup Wipe

- Economical, general purpose wipe
- Lightweight but strong and absorbent
- Perfect for cleaning hands, spills and equipment
- Great for windows – contains no additives that can dissolve and cause streaks
- Cost-effective – fewer wipes for each cleanup
- **Not** for paint preparation or final pre-clean
- For use in panel shop, mechanical, detailing, cleaning

White perforated wipe, 23cm x 38cm,
400 wipes per box (Code: E-4366)
Can be mounted in rack E-4474

Solvent Wash & Dry Cloth

- Premium waterborne and solvent pre-clean wipe
- Large and super-absorbent
- Virtually lint-free
- Offers excellent strength, wet or dry
- No added binders or glue that can dissolve on the surface to contaminate your work

Blue Interfold cloth, 30cm x 42cm wipe,
100 wipes per box (Code: E-4143)
Can be mounted in magnetic rack E-4473

Degreasing Cloth

- Ideal for cleaning of panels during prep and prior to paint being applied
- For use with waterborne and solvent degreasers and silicone removers
- Virtually lint free and super absorbent

Qtr fold, 30cm x 35cm cloth,
300 wipes per box (Code: A-1000)

Primary Tack Cloth

- For use with waterborne and solvent paints
- Medium "tackifier" – effectively picks up dirt and dust before basecoat while minimising the potential for tack transfer
- Flexible enough to access hard to reach corners

Qtr fold, 30cm x 45.5cm wipe,
12 cloths per box (Code: E-4586)

Polish/Detail Cloth

- Extra-soft – safe for your finish
- Traps polish for a brilliant shine
- No streak-producing additives
- Excellent for detailing chrome and interiors

White perforated wipe, 38cm x 38cm,
275 cloths per box (Code: E-4144)
Can be mounted in rack E-4474

Static Control Wipe

- Pre-saturated wipe with 70/30 blend of isopropyl alcohol/de-ionized water
- Reduces static charge, minimizes the attraction of dirt and cleans surfaces thoroughly to lower the risk of paint defects
- Ideal for moderate temperature and/or humidity conditions

*Pre-sealed individual packs, 38cm x 30.5cm,
45 packs per box (Code: PS3975S)*

Metal Racks

Magnetic metal rack that holds pop-up boxes for Solvent Wash & Dry Cloth
(Code: E-4473)

Screw in rack for box of clean up wipes or polish detail cloth
(Code: E-4474)
