

LED there be light!

Q-LITE - THE POWERFUL DAYLIGHT LAMP FROM AXALTA

CREATE OPTIMAL LIGHT CONDITIONS ANYTIME, ANYWHERE.

Whether carrying out damage appraisals, comparing the car colour with samples or checking the freshly painted finish for dust inclusions, perfect lighting is critical to get it right.

Our cordless Q-Lite daylight lamp helps refinishing professionals to choose the right colour. The enhanced optical system with 15 high-power LEDs enables bodyshops to set light intensity levels in multiple stages making it conceivable to compare both light and very dark metallic colours accurately. In addition to providing bright daylight, comparable to midday light, the Q-Lite daylight lamp also provides warm evening light.

The latest generation of our Q-Lite daylight lamp is not only brighter, but it is also made more durable. The built-in fall and fragment protection makes small accidents a thing of the past. Thanks to the latest energy-saving LED and enhanced battery technology, our Q-Lite daylight lamp is ready to be used all day long.

- Enhanced optical system: New high-power LEDs produce light similar to daylight (LEDs with 3x5 optics)
- Improved fall protection: additional rubber strip above LED screen and increased stability makes rolling off the vehicle even more difficult
- Improved protection against unintentional operations thanks to recessed button design
- Added charging indicator shows red when charging
- Q-Lite housing now dark grey

TECHNICAL INFORMATION:

Specification luminaire	
Operating voltage	17 - 20 V DC
Operating power (charging process)	0,69A
Output charging process	13 W
Charging time	max. 3 - 4 h
Protection type	IP20
Protection class	III (SELV)
Dimensions	ca. 248 mm x 75 mm x 103 mm
Weight (excl. battery)	273 g

Specification battery	
Type	Ni-MH
Voltage	9,6 V
Capacity	min. 1900 mAh
Dimensions	101 mm x 29,5 mm x 29,5 mm
Weight	223 g
