

Sontara®

The Basis for a Perfect Finish

SONTARA®

Distributed in Australia by Axalta Coating Systems

Why Sontara®?

Dust, lint and dirt are a paint technician's worst enemy!

Get the job done perfectly the first time, without the need for costly rework, by using a quality Sontara® cloth specifically designed for use in an automotive environment. The unique hydroentangling technology from Sontara uses thousands of high-pressure, needle-like jets of water to entangle the fibres into a fabric that's soft, strong and low-linting.

Sontara® Advantages:

- A wiping solution with no binders or chemical residue
- Minimise the potential for product defects and associated revenue losses
- Improve productivity and profitability – get the job done right the first time
- Enhance the quality of your work and proactively protect your environment from contamination

Automotive Wipes

The Sontara® Surface Preparation System offers the right wiping product for every stage of the refinish process. Manufactured with unique proprietary technology, Sontara® wipes deliver absorbency, excellent strength and durability and extremely low lint. Reducing sources of lint or loose fibres can minimise the potential for paint defects and helps deliver that perfect finish!

Solvent Wash & Dry Cloth

- Premium waterborne and solvent pre-clean wipe
- Large and super-absorbent
- Virtually lint-free
- Offers excellent strength, wet or dry
- No added binders or glue that can dissolve on the surface to contaminate your work

*Blue Interfold cloth, 30cm x 42cm wipe,
100 wipes per box (Code: E-4143)
Can be mounted in magnetic rack E-4473.*

Degreasing Cloth

- Ideal for cleaning of panels during prep and prior to paint being applied
- For use with waterborne and solvent degreasers and silicone removers
- Virtually lint-free and super absorbent
- Ideal for general purpose use

*Qtr fold, 30cm x 35cm cloth,
300 wipes per box (Code: A-1000)*

Primary Tack Cloth

- For use with waterborne and solvent paints
- Medium “tackifier” – effectively picks up dirt and dust before basecoat while minimising the potential for tack transfer
- Flexible enough to access hard to reach corners

*Qtr fold, 30cm x 45.5cm wipe,
12 cloths per box (Code: E-4586)*

Static Control Wipe

- Pre-saturated wipe with 70/30 blend of isopropyl alcohol/de-ionised water
- Reduces static charge, minimises the attraction of dirt and cleans surfaces thoroughly to lower the risk of paint defects
- Ideal for preparation of new plastic parts

*Pre-sealed individual packs, 38cm x 30.5cm,
45 packs per box (Code: PS3975S)*

Aerospace grade wipes, 30cm x 42cm,
250 wipes per box (Code: AC12165)

Aerospace Wipes

In addition to the range of Automotive wipes, Sontara® offers wipes for the Aviation industry.

Sontara® Aerospace Grade Wipes are great for wiping surfaces dry, for cleaning hard-to-reach crevices, and for use on metal parts and corners because they are specially engineered to resist snagging.

Benefits

- Exceptionally clean – contains no binders, chemical residue, contaminants, or metal shavings that can result in surface damage or rework
- Higher absorbency rate can result in wiping jobs being completed more quickly
- Low-lint performance helps to minimise defects and contamination
- Durable – high strength fibre blend makes Sontara® Aerospace Grade Wipes less likely to snag on metal parts, rivets and sharp corners
- Tackles isopropyl alcohol, MEK, MPK, and other aggressive solvents without falling apart

Sontara® Aerospace Grade Wipes meet the following requirements

- Aerospace Material Specification AMS 3819B, Class 2, Grade A
- Boeing Material Specification BMS 15-5F, Class A
- Bombardier Aerospace
- Cessna Aircraft Company CSFS039
- Douglas Material Specification DMS 1820E
- Pratt & Whitney GA100-11E
- U.S. Air Force T.O. 1-1-8

How to Order

The products in this brochure are available through Axalta Coating Systems and its network of distributors in Australia. To find your nearest distributor visit axalta.au/sontara or call **1800 282 582**.
