

ADVANCED INVENTORY MANAGEMENT

Simplify inventory management

- Precise overview of all products and consumables in your inventory
- Automatic order-list creation
- Always up-to-date dashboard
- Reduced warehousing time
- Manage multiple warehouses from a single screen
- Create your own barcodes (catalogue, labels)
- Track expiry dates to prevent waste of rarely used paints

Drivus supports professional refinish bodyshops with innovative services, helping them to optimize their processes and increase their efficiency and profitability.

A SINGLE, SIMPLE TOOL TO MANAGE EVERY ITEM OF YOUR INVENTORY

Manage paint and non-paint inventory using a single cloud-based tool. With virtually automatic stock replenishment, it saves you time, effort and money by streamlining the entire ordering and stocking process.

01

ENHANCED MONITORING

By monitoring consumption and controlling stock levels in real time on the always up-to-date dashboard, you can efficiently manage every item in your inventory - even across multiple warehouses.

02

SIMPLIFIED STOCK HANDLING

Each item of incoming inventory is either scanned or automatically checked in. It's scanned again when removed and automatically reordered if necessary.

03

IMPROVED PROFITABILITY

Reduce your capital investment by carrying less inventory. And, thanks to reduced process times, you can focus your efforts on more profitable activities.

04

FAST ROI

With the efficiencies generated, Advanced Inventory Management typically pays for itself within short time!
