

# PAINTSHOP COCKPIT

## Take control

- Enhanced job card management thanks to seamless integration with your current Bodyshop Management System enabling you to get more from your existing resources.
- Easy to use Activity Monitor to track processes at key steps of the refinishing processes.
- Enhanced KPI dashboard offers you a clear view of your paintshop's key metrics.
- Save time on inventory. Instead of chasing low value items, create packages and track them as part of our non-paint material tracker.
- Seamless integration with Axalta Color Cloud further improves your paintshop's productivity.

Axalta Drivus supports professional refinish bodyshops with innovative services, helping them to optimize their processes and increase their efficiency and profitability.

# KEEP AN EYE ON YOUR PAINTSHOP'S PERFORMANCE AND PROFITABILITY

Paintshop Cockpit puts you in the driver's seat. It enables you to visualize your paintshop's profitability and day-to-day performance by giving vital information on relevant aspects of your paintshop operations.

## 01

### KPIS CLEARLY PRESENTED

Paintshop Cockpit's enhanced KPI dashboard with extended KPI panels (based on paint and material data), advanced data reporting and exporting offers you a clear view of your paintshops key metrics.

## 02

### OPTIMIZED PERFORMANCE

It gives you a detailed overview of processes, material usage and employee performance giving the possibility at the shop manager to assess actual paintshop performances and define improvement areas.

## 03

### IMPROVED PAINTSHOP MANAGEMENT

Thanks to extended MSO capabilities Paintshop Cockpit gives paintshops of any size key business information in an easy-to-understand way so you know where improvements can be made.

## 04

### SPOT NEW OPPORTUNITIES

By continuously monitoring every aspect of your paintshop's performance, you can spot trends and exploit them for business advantage.

All KPIs are presented clearly on the Paintshop Cockpit Cloud Service allowing you to monitor and track your cross margin and overall performance.
