

**Audurra™ Systainer<sup>3</sup> M 237 ECO****SANDING****Description:**

With the new Audurra Systainer<sup>3</sup> M 237 ECO, a packaging solution is available for even more sustainable organization and storage of power tools, hand tools, or work and consumable materials. The Systainer<sup>3</sup> is made from 67% high-quality ecological recycled ABS Eco material and has a 51% lower CO<sub>2</sub>e footprint\* compared to a Systainer<sup>3</sup> made from standard material. The product properties (robust, impact-resistant, and temperature-resistant) of the Audurra Systainer<sup>3</sup> M 237 Eco are in no way inferior to those of the proven ABS material. The package includes a thermoformed insert for sanding discs with a diameter of 150 mm.

**Features :**

- External dimensions: H 237 x B 396 x T 296mm
- Internal dimensions: H 196 x B 389,7 x T 275,2mm
- Load capacity: 20 kg
- Base material: ABS Eco
- Weight: 2,19 kg

**Available in:**

| Artikelnummer | Modell   | Verpackung |
|---------------|----------|------------|
| D15425812     | M237 ECO | 1 Piece    |

\* The CO<sub>2</sub>e footprint measures the total amount of greenhouse gases caused directly and indirectly by an activity, a product, or a person. All greenhouse gases are converted into CO<sub>2</sub> equivalents (CO<sub>2</sub>e) in order to make their impact comparable.

## Audurra™ Systainer<sup>3</sup> M 237 ECO

### SANDING

#### High Recycled Content

The 67 percent post-consumer recycling (PCR) content in the Systainer<sup>3</sup> Eco consequently results in a saving of fossil raw materials of up to 67 %

#### Reduced CO<sub>2</sub>e Footprint

The material in the Systainer<sup>3</sup> Eco has a 51 % lower CO<sub>2</sub>e footprint compared to the Systainer<sup>3</sup> made from standard material.

#### Proven Product Quality

Robust, impact-resistant and temperature-resistant: The product properties of the Systainer<sup>3</sup> Eco are in no way inferior to those of proven ABS.

### Systainer<sup>3</sup> Specification:

|                     |                                             |
|---------------------|---------------------------------------------|
| Lid color:          | ■ black (RAL 9004)                          |
| Body color:         | ■ black (RAL 9004)                          |
| Lid handle color:   | ■ carmine red (RAL 3002)                    |
| Front handle color: | ■ black (RAL 9004)                          |
| T-Loc latch color:  | ■ carmine red (RAL 3002)                    |
| Latch cover color:  | ■ carmine red (RAL 3002)                    |
| Printing process:   | UV digital printing                         |
| Interior:           | Thermoformed insert for 150mm sanding discs |
