V-3921S™ SURFACE CLEANER

GENERAL

DESCRIPTION
A 0.21 lb./gal (25 g/l) category compliant, multi-purpose surface cleaner that leaves no surface residue. Its unique formulation makes it excellent for dissolving water-soluble and light surface contamination. It dries quickly and won’t affect tape or paint adhesion. Designed for use with Cromax® Pro.

PRODUCT ADVANTAGES
- Low VOC
- Works well on dirt, insect remnants, bird drippings, tree sap, salt/road film, tape adhesives, finger prints and compound sludge

The products referenced herein may not be sold in your market. Please consult your distributor for product availability.

MIXING

COMPONENTS
V-3921S™ Surface Cleaner

MIX RATIO
Ready-to-use. Shake well before using.

APPLICATION

SUGGESTED USES
- All Cromax® Topcoats
- Sanded Substrates
- OEM Finishes
- Cured, Repainted Surfaces
- Sanded Primers

NOT RECOMMENDED FOR
Substrates that have not been thoroughly cleaned of heavy contamination (grease, wax, oil, etc.)

APPLICATION
- Cured Sealers Soak a clean cloth with V-3921S™ Surface Cleaner or spray V-3921S™ Surface Cleaner on the surface thoroughly with a spray bottle.
- Wipe the surface while it is still wet to loosen and lift the contaminants. Follow immediately by wiping thoroughly with a clean, dry cloth.
- For hard to remove surface contamination, reapply V-3921S™ Surface Cleaner and wipe off with a clean, dry cloth.

STORAGE
Store V-3921S™ Surface Cleaner at room temperature. Do not store in areas subject to freezing temperatures.
PHYSICAL PROPERTIES

VOC (AP): 25 g/L (.2 lbs./gal)

VOC REGULATED AREAS

These directions refer to the use of products which may be restricted or require special mixing instructions in VOC regulated areas. Follow mixing usage and recommendations in the VOC Compliant Products Chart for your area.

SAFETY AND HANDLING

For industrial use only by professional, trained painters. Not for sale to or use by the general public. Before using, read and follow all label and MSDS/SDS precautions. If mixed with other components, mixture will have hazards of all components.

Ready to use paint materials containing isocyanates can cause irritation of the respiratory organs and hypersensitive reactions. Asthma sufferers, those with allergies and anyone with a history of respiratory complaints must not be asked to work with products containing isocyanates.

Do not sand, flame cut, braze or weld dry coating without a NIOSH approved air purifying respirator with particulate filters or appropriate ventilation, and gloves.
