LOW VOC PRODUCT SYSTEM

VALUE YOU CAN COUNT ON

METALUX®
LOW VOC

We offer award winning color systems from the lightest colors to the darkest and everything in between. Our insistence on providing superior systems and value to our customers has seen the formulation of a truly impressive range of products.

The unparalleled combination of performance excellence, world class color match, premier color tools and support are key in exceeding our customer's expectations with the best paint products around.

COLLISION-QUALITY COLOR MATCH

Metalux products are fast and easy to apply for a long-lasting, collision-quality finish. Achieving an accurate color match to thousands of vehicles with our basecoat color system has never been easier.

COMPACT SYSTEM

With a compact system of primers, sealers, basecoats and clearcoats, the Metalux Low VOC product line is sure to have a paint solution for all your collision repair needs.

USER-FRIENDLY APPLICATION

Metalux products are straightforward to use with simple mix ratios and can be used in a wide range of applications.

DTM PRIMER

This direct-to-metal grey primer provides excellent corrosion protection and optimum adhesion on OEM substrate and bare metals. Meets 2.1 lbs/gal VOC requirements.

VOC: 2.1 lbs/gal

UNDERCOAT	HARDENER
LV9306 DTM Primer	LV9734 LV Medium Hardener
	LV9735 LV Slow Hardener

FILLER

A 1.9 lbs/gal VOC high-build, 2K grey primer filler for automotive refinishing and new bodywork.
Designed to provide an excellent substrate for all refinishing with exceptional gloss holdout.

VOC: 1.9 lbs/gal

UNDERCOAT	HARDENER	REDUCER
LV9745 Filler	LV9734 LV Medium Hardener	LV9710 Zero VOC Reducer
	LV9735 LV Slow Hardener	

SEALER

A 2.1 lbs/gal VOC, grey urethane sealer that applies smoothly and maintains superior color and gloss retention designed to increase inter-coat adhesion.

VOC: 2.1 lbs/gal

UNDERCOAT	HARDENER

PROFESSIONAL COLOR SELECTOR

Sprayed fan decks chromatically organized make it quick and easy to find color within color families.
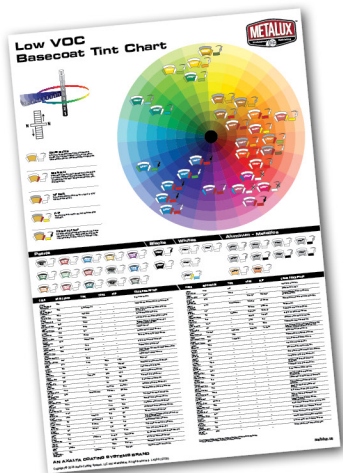

Part number: M-6718

COLOR CHOICE® SOFTWARE

Color Choice provides an extensive library of 50,000+ color formulas with monthly updates for new and updated colors.

ACQUIRE® COLOR COMPACT SPECTROPHOTOMETER

When paired with Color Choice, the Acquire Color Compact Spectrophotometer reads color and helps find the most accurate color formula.

COLOR MOVEMENT CHART

Color movement charts provide visual tips on how to use toners to move color in the right direction, if necessary.

Part number: LH290
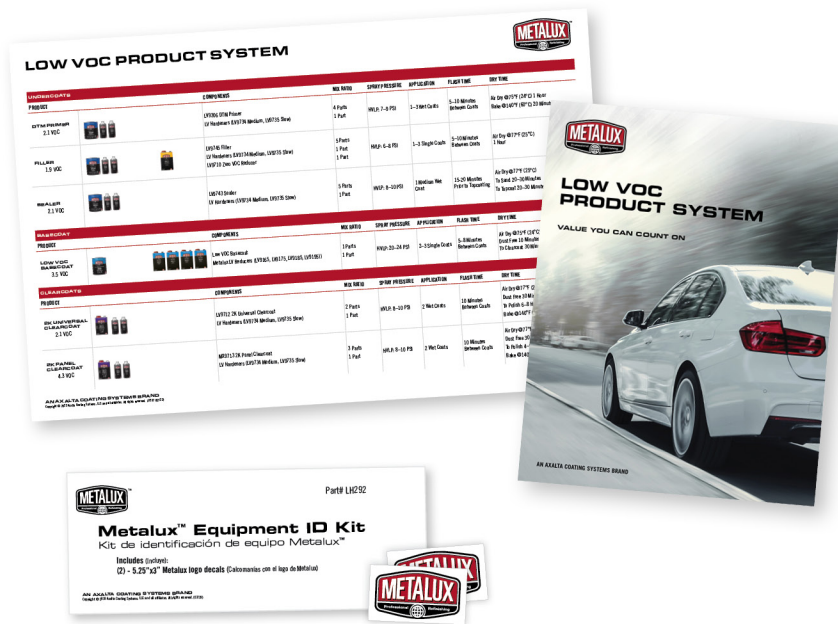

ADDITIONAL COLOR TOOLS

VINDICATOR*

VINdicator is Axalta's exclusive color retrieval tool designed to help customers easily and efficiently select the right color formula using the Vehicle Identification Number (VIN). When used exclusviely with ColorNet, VINdicator offers a simple alternative to other formula-retrieval options to assist customers in choosing the right formula when multiple variants exist for a given color.

*VINdicator is only offered when used exclusively with ColorNet.
