Imron® Atlas Aviation Basecoat

Luxury appearance. Premium protection.

AN AXALTA COATINGS SYSTEMS BRAND

IMRON ATLAS

Imron Atlas represents a groundbreaking advancement in aviation finishes, specifically designed for stripes and accent finishing of business jets, single-engine, rotary-wing aircraft, and helicopters.

With a vast range of colors, featuring eye-catching effects and vibrant solids, Imron Atlas Basecoat is a luxury-quality polyurethane finish that allows owners to customize their aircraft's appearance to reflect their personal style and preferences.

Experience the next evolution in aviation coatings with Imron Atlas. Whether you're restoring a classic jet or customizing a new build, Imron Atlas delivers unmatched premium quality and elegance. Its durable finish ensures that your aircraft remains beautiful and protected.

IMRON[®]
AVIATION FINISHES

Imron Global Tints. A cutting-edge solution for unique colors and effortless application.

Axalta is proud to unveil our new, innovative global tint line specifically designed for the commercial transportation segment. This cutting-edge solution offers a collision-quality color offering that combines exceptional sprayability and repairability, ensuring your aircraft always looks its best.

The new color formulations provide an extremely high-quality finish in thousands of unique colors. This special formulation provides access to color space that is simply not possible with other basecoats. Unlock a world of creative possibilities to customize your aircraft like never before.

Meticulously crafted for the painter, our technology makes application a breeze. Using the Imron Atlas binder specifically formulated for the aviation segment, painters will enjoy broad spray latitude that accommodates various techniques, ensuring a smooth and even coat every time, whether applied by OEM manufacturers or for repairs. Our innovative formulation ensures seamless blending and superior metallic flake control for precise application and a flawless finish making touch-ups and repairs easier than ever.

With Axalta's new global tint line, you can transform your aircraft into an eye-catching asset that reflects your commitment to quality and excellence. Experience the perfect combination of innovation, performance, and beauty.

Beauty

Strength

The perfect blend of innovation, beauty, and performance

Collision-Quality Colors

Achieve a luxury appearance with our collision-quality colors, specifically engineered to provide a flawless finish to match your aircraft to your automotive vehicle, if you like.

Industry-Leading Repairability

Designed with repairs in mind, our products allow for easy touch-ups and repairs, helping to maintain the integrity and appearance of surfaces over time.

Broad Color Capability

Choose from an extensive palette of solid and effect colors to find the perfect match for your personality. With Imron Atlas, you can mix and match to create a custom color arrangement that is exclusively yours, ensuring your aircraft is as unique as you are.

Exceptional Paint Blending Capabilities

Our innovative technology allows for effortless blending even on the most challenging effect colors, ensuring that transitions between colors are smooth and natural. Say goodbye to harsh lines and mismatched shades.

Very Easy to Apply

Perfect for both beginners and experts alike, Imron Atlas basecoat is formulated for easy application of stripes and accent colors. Enjoy a smooth, hassle-free experience that delivers stunning results every time.

Luxury Quality Finish

Beyond just color, Imron Atlas Basecoat system delivers a luxury-quality polyurethane finish that enhances the beauty of your aircraft while providing exceptional durability. Your unique accent color will shine brilliantly.
