

Axalta North American Internship Summit

July 20-22 • Philadelphia, PA

Each year, Axalta brings all North American interns to our Global Headquarters based Philadelphia for a 48 hour intensive program. The Axalta Internship Summit will introduce opportunities to learn more about the history of Axalta, tour two of our major facilities and participate in team building experiences. This unique program allows interns to interact and learn from corporate and executive leadership teams so you can make long lasting professional connections, which will help to enhance your career network.

Where will your passion take you?

Axalta 2015 Internship Program

Built for Performance.

Axalta's internship program provides a meaningful and professional experience for college students. Throughout the program, interns will be supported by a hands-on supervisor, a one-on-one mentoring relationship with a senior Axalta leader, and a day-to-day companion to assist with daily operations within our company. To enhance the real-world experience, all interns are provided a unique project designed by their functional mentor which possesses true business value. At the conclusion of the internship, interns are provided the opportunity to share their experience at Axalta among an audience of senior leaders through a presentation that explains the outcome of their work on the project. Additionally, all interns will get direct exposure to Axalta's senior level executives through the Axalta international Lecture Series and North American Internship Summit. These features of our program are all keys to insuring a robust, meaningful experience.

The Axalta Internship Program

Customer Experience

With a 100% focus on coatings, our more than 120,000 customers come first. We dedicate our work to developing the world's best coating systems and we pride ourselves on our customer relationships. As part of the Axalta Internship Program, all interns will participate in customer experience tours where they get to meet the people who use our products and services every day.

AXALTA COATING SYSTEMS

International Lecture Series

On a weekly basis, members of the Axalta Leadership Team will host 30-minute presentations followed by an open question and answer session. With engaging content and enriching group interaction, interns learn about leadership, passion, drive and ways to propel their own careers.

"I really enjoyed that the lectures covered a variety of topics. It was really beneficial to hear about the executive roles in Axalta as well as their overall business leadership strategies."

-Eddie Garcia, 2014 Procurement Intern, 2015 Axalta Employee

Key Projects

Interns are challenged to grow in their professional lives at Axalta. Key projects are worked on for the duration of the internship and are presented to site leadership teams. This project is designed as

an additional learning opportunity that allows each intern to demonstrate their newly acquired skills and talents to the Axalta community.
